FOUNDER'S MESSAGE

Our journey over the last year, has underscored our consistent growth with the unstinted support from donors, and it is a vindication of our efforts that all our donors and sponsors have consistently been with us through thick and thin. Philanthropic groups like the Freemasons lodge, and Rotary clubs, good hearted corporates like Hyundai Transys Lear, Rane Group, Savex Technologies, Thirumalai Chemicals, Hapag Lloyd, Hexaware technologies, and CavinKare [the list only keeps growing], and individuals who have dipped into their savings for a good cause, have been the reason why we have been able to sustain for so long. Three new corporate entities have joined us in our journey- Kaleesuwari Foundation, POS Hyundai and Iljin Automotive Limited. We also thank our partnering organizations in the rural areas for their support.

Freedom trust has reached out to Kerala, Telangana and Orissa, and provided limbs to amputees there. Our field officers Rishi and Abilash and our office manager Mohanraj have done an excellent job of conducting these camps with all social distancing and hygienic measures in place. Our Core team of Ravi Ayyangar, A. Sankaran, Usha Bharadwaj and T.K.Viswanath are meeting regularly to chart out the course of action in the future camps. We thank Sumathy Iyer for having introduced a new corporate donor. We are most thankful for the special support given by Mr. Hariharan and family and Dr. Sanjivi, who have sponsored entire camps.

A new initiative has been brought out by Mr. Sankaran, in the form of a newsletter titled STEPS AHEAD. We already have circulated 2 issues of STEPS AHEAD, documenting our activities every month.

SISHU PUNARJANMAM, our project to develop talent in the arts among differently abled children is now bearing fruit with two of our talented youngsters shining forth in the field of music; Manoj finishing his PhD in music, and Akshaya becoming a performer in demand for concerts.

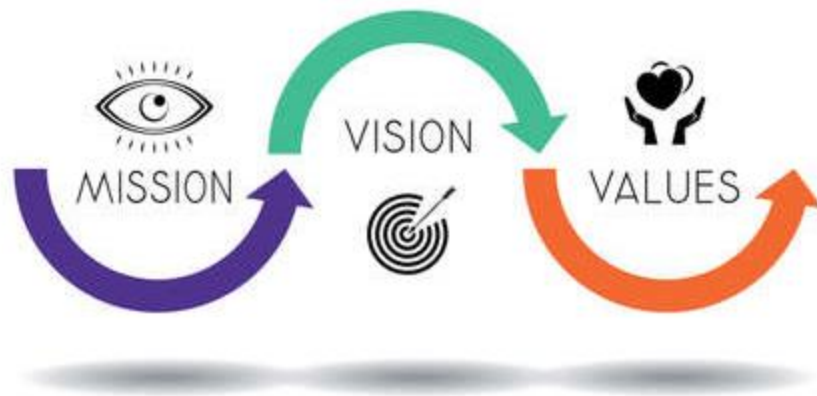

DR. S.SUNDER

FREEDOM TRUST

Foundation for the **Rehabilitation Education and Empowerment of the Disabled of Madras** (FREEDOM TRUST) was founded in the year 1997 to cater to the needs of the physically challenged in terms of their mobility and livelihood by Dr. Sunder, a renowned rehabilitation specialist.

The main objective of the trust is to provide mobility aids like wheelchairs, tricycles, artificial limbs and orthoses to the economically rural physically challenged. Over the years the foundation has distributed mobility aids and appliances to nearly **32,000** physically challenged and have conducted nearly **1000** rural camps across India.

In the last two years we have marched across the country, providing artificial limbs and mobility aids to rural physically challenged, even in remote inaccessible areas in Tamilnadu, Maharashtra, Kerala, Karnataka, Madhya Pradesh, Assam, Uttarakhand, Bihar, Andhra Pradesh and Odisha.

MISSION

Empower rural persons who are disabled.

VISION

Reach out to persons in India who are physically disabled and are economically backward and provide them mobility, rehabilitation and a sustainable livelihood.

VALUES

Reaching out to the under privileged and the physically challenged is a natural expression of an abled person. Let us join hands in empowering them with mobility and enable them to lead a near normal living.

TRUSTEES PROFILE

Dr. S. Sunder – Founder & Managing Trustee

Dr. Sunder holds an MD Degree in Physical Medicine & Rehabilitation. He has been recognized with “The Best Doctor in the Field of Social Service” by both the Central and State Governments. He has also been bestowed with “Lifetime Achievement Awards” by both the Government institute of Rehabilitation medicine and the Lions Host International in 2017 and by several Rotary Clubs for his outstanding service to the differently abled community.

Mr. Hariharan Sankaran - Trustee

Mr. Hariharan is an engineer with post-graduate engineering degree in Computer Science and rose to become the Head (Infrastructure) of i-flex solutions. He has been instrumental in getting corporate sponsorships for Freedom Trust and participates extensively in the disability camps organized by the trust. He is very empathetic about the cause of the trust and brings to the trust his vast experience in management and networking.

Mr. Sankaran Annaswamy – Trustee

Mr. Sankaran Annaswamy has worked as Senior VP at Standard Chartered GBS Pvt Ltd. He is an alumnus of Alagappa University, Karaikudi and he has played significant leadership roles in various IT organizations during his long tenure of 32 years. Apart from his profession, he is very much concerned about the environmental issues and social divides. He uses his spare time to help under privileged society through actively working with NGOs. He is a fitness enthusiast and participates in a running group called ‘Dream Runners’.

CONDITION OF PATIENTS IN RURAL AREAS

Persons with locomotor handicap need mobility aids to mainstream themselves in society. Some need wheelchairs, others need calipers, and some need artificial limbs. Those in rural areas cannot afford to come to the city or towns where qualified rehabilitation teams are situated; they neglect their handicap and later develop deformities which are difficult to correct, except by surgical means. Persons in rural areas have hardly any access to crutches, wheelchairs and tricycles which enable them to move from one place to another. Mobility is very important; to make a child go to school, to enable a student travel to college, and to make a worker go to office.

NAGAPATTINAM

TIRUNELVELI

It's a common sight to see the pathetic conditions of the mobility aids that the physically challenged persons use in rural areas. It worsens their disability and over a period of time develops other complications.

OUR PROJECT

GRAM VIKALANG PUNARJANMAM

Freedom Trust has been relentlessly working for the cause of such physically challenged persons and has helped them with mobility aids. **We give mobility which is a fundamental need.**

Patients with residual polio or cerebral palsy need orthoses, or calipers, which are custom made appliances given to paralyzed or weak limbs fit to the patients, enabling them to walk erect. An orthosis is a mechanical device fitted to the body to maintain it in an anatomical or functional position. Each mobility aid is custom made to the beneficiaries and the process ensure accurate fitment.

WALK INDIA making rural amputees walk...

Among the various types of physical disabilities, people with lower limb amputation benefit the most when fitted with prosthesis [artificial limb]. An artificial limb is essential to make an amputee get back to his life and resume his work independently. A sizeable number of physically handicapped are amputees.

It is our long-term vision to make people with lower limb amputation across India to get back on their feet with appropriate customized prostheses.

Freedom Trust conducts special camps for limb fitting at various towns and villages all over India and enables the amputees to walk with their newly fitted limbs.

SISHUPUNARJANMAM

Sishupunarjanmam refers to giving a fresh lease of life to differently abled, exceptionally talented children in the fields of music and arts. Launched in 2003, the project has enabled chosen students to establish a career for themselves in their respective fields. The scheme of providing scholarships and training has been so successful that five differently abled scholars have bagged the Most Creative Individual Award in the field of arts from the President of India

CAMP PROCESS

Field Visit

Each project begins with field visits by our field coordinators. A local organizer in the village or town is identified, usually an NGO or a voluntary association working in the field of disability. The need from the local physically challenged community is identified through them and data of persons needing appliances is collected before conducting the camp. A venue for organizing the camp in the same village or town which will be easily accessible and has disabled friendly amenities is chosen.

Assessment Camp

On the day of the camp, a team consisting of a Physiatrist [doctor trained in physical medicine and rehabilitation], a physiotherapist, and prosthetic/orthotic engineers visit the venue where the disabled persons are assembled. Usually, the numbers of persons assessed ranges from 50 to 200 per day. The Physiatrist assesses every beneficiary; and based on the physical condition, socio-economic background and condition of the existing appliances used by the beneficiary, a suitable mobility aid is prescribed.

Measurement Camp

Following the prescription of the appliances by the doctor, the beneficiary is moved to the orthotist-prosthetist section in the camp venue where appropriate measurement for the orthosis is taken by professionals.

Trial & Gait Training

A trial camp is conducted on the day of the camp or a day before it. The prosthetic team trains the beneficiaries on how to wear the device and maintain it. It is a training given to the users of artificial limbs to walk with their new limb. Such training is a vital factor in prosthesis fitment that will help the beneficiary use the appliance properly.

Distribution

Distribution of the appliances is done at a function in the town or village where the measurements were taken. The appliances are given away free of cost to the respective beneficiaries. The function usually involves the sponsor for the camp, team from Freedom trust, local organizer and the beneficiaries of the camp.

ACHIEVEMENTS & MILESTONES

NEW BOLERO NEO 8 VEHICLE DONATED BY CHENNAI WILLINGDON Corporate Foundation

We (Freedom Trust) would like to take this opportunity to express our heartfelt thanks to Chennai Willingdon Corporate Foundation for their support in donating a vehicle, which is playing a major role in the trust's work. Mr. Ganesh, the President of Chennai Willingdon Corporate Foundation (CWCF) handed over the keys of the new Mahindra Bolero Neo 8 Vehicle to Dr. Sunder on 20th October 2022 in the presence of Ms. Rohini Executive director CWCF, and Mrs. Usha Bharadwaj, at RANE corporate Office.

Sishupunarjanmam

A wonderful, extremely satisfying and meaningful project of Freedom Trust was started in 2004 with an aim to develop the talents amongst the differently abled children by giving them intense training and scholarship. The first batch of pearls trained under this project have now blossomed into wonderful artists both in the field of Music and Drawing. Akshaya is now a performing musician both as a Vocalist and Violinist, Manoj will be completing his Doctorate Degree in another four months, Vidarthe, Suvedha and Lokesh have established themselves as wonderful artists and managing their own shows and working too as artists in the corporate sector. Our pearls were invited by two well-known Organizations Bharatiya Vidya Bhavan and Bharat Kalachar to perform for them in Jan 2023.

The Music Forum

The cultural wing of Freedom Trust has also been successfully conducting path breaking events for students at The Music Academy and Bharatiya Vidya Bhavan in Chennai and Sri Jayendra Golden Jubilee School in Tirunelveli. As a first of its kind venture, in association with The Music Academy, Music Forum conducted an exclusive event for College Students involving a team of top class musicians in Sept 2022. This was very well received and our annual event for school children was held at Bharatiya Vidya Bhavan in Oct 2022. Freedom trust conducted a Lec Dem Mela in March 2023 where in Patrons of Music and Organizers who have been untiringly working for the cause of Music; viz. Sri. Cleveland Sundaram, Sri. Krishnamurthy from Kerala, Smt. Jayalakshmi were honored with Sangeetha Seva Ratna while Dr. Radha Bhaskar was honoured with the title Sangeetha Lakshana Praveena.

HUMAN STORIES

Namaste

My name is Braja Behra. I am a leprosy patient and staying in a shelter. I lost my Right Leg due to leprosy. I was seeking for an artificial limb since long time but helpless to go out. Endlessly waited to stand and walk again and do my daily living chores. Finally, Freedom Trust's people reached and provided a new limb which helped me to walk independently. I'm extremely happy as I am finally able to go out and do my work with my new leg. I'm heartily grateful to the sponsor for this great help.

Namaste

My name is Bindulata Sahoo. "I lost my left leg in a bike accident. I was depressed and did not come out of my room to meet anyone not even my family members. I was cursing myself and thought that I could never stand on my feet. The incident had totally broken me. I could not afford an artificial limb.

Then one day my neighbour informed me about Freedom Trust and I received an artificial limb free of cost in one of their camps. Now, I can go out, meet people and do all my work properly. I will always be grateful to Freedom Trust and the sponsor who gave me another chance to stand on my own feet again. Thank you".

He is Kamlesh living in Thiruvavarur. He was not able to go to school after right leg amputation. Feeling stressed, did not speak to anyone and was always dependent on his father and close family members.

After receiving a limb from Freedom Trust, he walks on his own and goes to school himself. Now he feels good and his father is very happy and grateful about our trust's help.
